

Jamar Adams

Silver Spring MD, 20910 | adams.jamar757@gmail.com | 571-263-2469

Objective

To immerse myself into the world of data analytics and obtain an entry level role where I can learn and grow.

Skills & Abilities

Bitbucket / Gitlab

Mongo

Excel

SQL

JupyterHub

Python

Projects

Python

- Created scripts to automate the Extract, Transform, & Load process of large heterogenous datasets
- Interacted with RESTful APIs using pythonic requests and JSON parsing techniques
- Generated graphs, charts, and tables using numpy, pandas, matplotlib, and plotly libraries

SQL

- Wrote SQL commands to perform Create, Read, Update, and Delete operations
- Used SQL techniques via Join commands to combine multiple datasets into more comprehensive databases and tables
- Used pymongo and sqlalchemy libraries to traverse large datasets before loading them into dataframes to analyze
